PROFILE

Detail-oriented and highly motivated software developer with expertise in building dynamic, responsive web applications and user interfaces. Experienced in MERN stack development, Django-based systems, and AI integrations, with a strong focus on enhancing functionality, user experience, and system efficiency. Demonstrated ability to deliver complex projects from concept to deployment with professional excellence.

EDUCATION HISTORY

Passed SSC, June 2020

Lotus English School , Passed with 80%

Diploma in Information Technology, July 2020 – June 2023

Government Polytechnic , Passed with 8.68 CGPA

PROJECTS

- **TurfX (MERN Stack):** Developed a full-featured booking platform enabling users to reserve box cricket turf slots with seamless functionality and real-time management capabilities for owners. Integrated payment solutions for a smooth, efficient booking experience.
- **Examination System (Django):** Built a dynamic web application where teachers can create exams and students can take tests and view results, incorporating a secure, intuitive interface with customized teacher and student dashboards.
- **Chat AI Assistant (HTML, CSS, JavaScript, Gemini API):** Created a responsive AI assistant with interactive chat capabilities, utilizing the Gemini API for advanced conversational features and seamless user interactions, enabling real-time responses and rich user experience.
